ESCAPE THE CITY

In the midst of the world-renowned game-rich Timbavati Private Nature Reserve lies a grand and somewhat stately five star country home hugged by wild bushveld and endless vistas of the Kruger. Walker's Bush Villa is an ornate, yet relaxed, bush hideaway furnished with decor that marries Karen Blixen's "Out of Africa" to the Tate Gallery.

The villa is furnished with a variety of collectibles, handcrafted items, classic art pieces and opulent finishes. There are hints of Africa throughout the villa, with original Dylan Lewis sculptures and other artwork adorning secret nooks and crannies.
